Credit Score

Learn More about FICO ® Scores ▸

Your score is near or slightly above the average of U.S. consumers and most lenders consider this a good score.

What's helping your score?

No Serious Delinquency

There is no evidence of a serious delinquency (90 days past due or greater) or derogatory description on your credit report.

Number of your accounts that were ever 90 days late or worse
0 accounts

The presence of delinquencies or derogatory information ⓘ in a credit report is a powerful predictor of future payment risk. People with no previous late payments are much more likely to pay on time in the future.

Virtually no FICO High Achievers ⓘ have a 90 days late payment or worse listed on their credit report.

Low Revolving Credit Usage

You've limited the use of your available revolving credit.

Ratio of your revolving balances to your credit limits
4%

FICO® Scores evaluate the total revolving account balances in relation to the total credit limits on those accounts ⓘ. People who keep their ratio of balances to credit limits low pose less risk to lenders than those with higher ratios.

For FICO High Achievers ⓘ, the average ratio of the revolving account balances to the credit limits is less than 7%.

Bills Paid On Time Recently

You've recently been paying your bills on time.

Your most recent missed payment happened
5 Years, 9 Months ago

While you have missed payments in the past, you have recently been paying your bills on time. Staying current and paying bills on time demonstrates lower risk.

About 98% of FICO High Achievers ⓘ have no missed payments at all. But of those who do, the missed payment happened nearly 4 years ago, on average.

What's hurting your score?

Summary | Accounts | Collections | Inquiries | Public Records | Credit Score

You have one or more accounts showing missed payments or derogatory indicators.

Number of your accounts with a missed payment or derogatory indicator
1 account

The presence of missed and late payments or derogatory indicators ⓘ on a credit report, including the number of late payments, how late they were and how recently they occurred, are correlated with future credit risk. Your FICO® Score was lowered due to the number of missed and late payments and/or accounts with derogatory indicators reported.

As the number of accounts with delinquency or derogatory indicators decreases, they have less impact on a FICO® Score.

About 98% of FICO High Achievers ⓘ have no missed payments at all. But of those who do, the missed payment happened nearly 4 years ago, a lower impact.

Disclaimer

Disclaimer

About your FICO® Score 8 or other FICO Scores

Your FICO®Score 8 powered by Experian data is formulated using the information in your credit file at the time it is requested. Many but not all lenders use FICO® Score 8. In addition to the FICO® Score 8, we may offer and provide other base or industry-specific FICO® Scores (such as FICO® Auto Scores and FICO® Bankcard Scores). The other FICO® Scores made available are calculated from versions of the base and industry-specific FICO® Score models.

Base FICO® Scores (including the FICO® Score 8) range from 300 to 850. Industry-specific FICO® Scores range from 250-900. Higher scores represent a greater likelihood that you'll pay back your debts so you are viewed as being a lower credit risk to lenders. A lower FICO® Score indicates to lenders that you may be a higher credit risk.

There are many scoring models used in the marketplace. The type of score used, and its associated risk levels, may vary from lender to lender. But regardless of what scoring model is used, they all have one purpose: to summarize your creditworthiness. Keep in mind that your score is just one factor used in the application process. Other factors, such as your annual salary and length of employment, may also be considered by lender when you apply for a loan.

Credit scoring can help you understand your overall credit rating and help companies better understand how to serve you. Overall benefits of credit scoring have included faster credit approvals, reduction in human error and bias, consistency, and better terms and rates for American consumers through reduced costs and losses for lenders.

Your lender or insurer may use a different FICO® Score than FICO® Score 8 or other base or industry-specific FICO Scores provided by us, or different scoring models to determine how you score.

Few Accounts Paid On Time

You have few accounts that are in good standing.

Number of your accounts currently being paid as agreed

2 accounts

The FICO® Score considers the number of accounts showing on-time payments. In your case this number is too low either because you have very few accounts or you've missed payments recently on some of your accounts or have accounts with derogatory indicators ⓘ reported.

What this means to you:

FICO High Achievers ⓘ have an average of 6 accounts currently being paid as agreed.

No Loan Activity

You have no recent activity from a non-mortgage installment loan.

Your credit report shows no recent non-mortgage loans (such as auto or student loans) or sufficient recent information about your loans. Having a loan along with other types of credit demonstrates that a person is able to manage a variety of credit types.
